## Education

---

### Dhanalaxmi Srinivasan University

Bachelors of Technology in Computer Science and Engineering

*Sep 2022 - Jun 2026*

### Resonance College

Senior Secondary (Class XII)

*Jun 2020 - Sep 2022*

## Profile Summary

---

- Dedicated Data Analyst with a strong foundation in data analytics, visualization, and statistical modeling.
- Proficient in Power BI, SQL, Python, and Excel.
- Skilled in creating dynamic dashboards, processing large datasets, and extracting insights for data-driven decision-making.
- Experienced in data preprocessing, cleaning, and automation using Python and SQL.
- Strong understanding of financial analytics and predictive modeling.
- Excellent problem-solving, decision-making, and collaboration skills.

## Projects

---

### Live Stock Market Analytics Project

- Developed a real-time stock tracking system using APIs, Python, and Power BI.
- Implemented linear regression for stock price prediction and analysis.
- Visualized stock market trends and patterns using interactive dashboards in Power BI.

### COVID-19 Data Analytics Dashboard

- Created a Power BI dashboard to analyze COVID-19 trends globally.
- Used Python to process data and extract key pandemic insights.
- Improved report accuracy by 30% through enhanced data extraction and visualization.

## Certifications

---

- **PwC Power BI Project:** Successfully completed a Power BI project with PwC and earned a certification.
- **Scaler Python**
- **Scaler Power BI**

## Skills and Interests

---

**Programming:** Python, C, Java

**Data Analytics:** Power BI, SQL, Jupyter Notebook, Pandas, NumPy, Matplotlib, Seaborn

**Data Processing:** Data Visualization, Exploratory Data Analysis (EDA), Statistical Modeling, Data Cleaning

**APIs Automation:** API Integration, Web Scraping, Data Extraction

**Soft Skills:** Problem-solving, Decision-making, Critical Thinking, Communication, Teamwork
